SKILLS

BACKEND

- C# .NET
- ASP.NET Core
- REST API
- Minimal API
- AI - Integration
- NodeJS Express
- Python

FRONTEND

- Javascript/Typescript
- React.js
- React Native
- Angular
- HTML5
- CSS3

CLOUD – INFRASTRUCTURE

- Azure
- AWS
- IaC – Pulumi
- Kafka

TOOLS - PRACTICES

- Visual Studio Code
- Visual Studio
- xUnit
- Git
- GitHub
- Unity (Hobbyprojekt)

PROFESSIONAL SUMMARY

I am a Fullstack .NET Developer with a strong drive to learn new technologies and build reliable, user-focused solutions. Through School of Applied Technology, one year of JavaScript studies focused on React and TypeScript at Företagsuniversitetet, and a Higher Education Diploma from the Webmaster programme at University West, I have built a broad foundation in backend, frontend, UI/UX, and web administration.

My background in sports and health science has strengthened my ability to work with people, long-term development, and sustainable performance. At the same time, more than a decade as a train driver has given me a calm and methodical way of working, a strong sense of responsibility, and the ability to make well-considered decisions under pressure.

EXPERIENCE

Fullstack C# .NET 02/2026 - Present
School of Applied Technology

- Working as a fullstack .NET consultant in teams focused on delivering end-to-end solutions.
- Collaborating in agile environments with a strong focus on code quality, structure, and long-term maintainability.
- Contributing to development where technology, responsibility, and teamwork need to work together in practice.

Personal Trainer 03/2024 - 01/2026
Friskis & Svettis

- Designed individualized training programs based on each client's goals, level, and conditions.
- Coached clients in strength training, conditioning, and health with a focus on motivation, progression, and sustainable results.
- Built strong communication skills and the ability to create trust, structure, and long-term commitment when working with people.

Train Engineer 03/2018 - 10/2025
SJ Stockholmståg (previously MTR Pendeltågen)

- Worked in a safety-critical environment with high demands for precision, responsibility, and decision-making.
- Handled complex situations with calmness, accuracy, and a strong focus on safety and punctuality.

Train Engineer and Instructor 04/2013 - 02/2018
SJAB

- Combined operational work as a train driver with responsibility for supervision and training.
- Developed the ability to explain clearly, support others in their development, and take responsibility for quality in execution.

Consulting Train Driver 06/2011 - 04/2013

- TDD
- Event Driven Architecture
- Figma
- Krita

LANGUAGES

Svenska: Native

Engelska: Fluent

ProTrain Bemanning AB

- Worked as a consultant for several different operators and adapted quickly to new environments and ways of working.
- Built strong flexibility, professionalism, and the ability to deliver reliably in new contexts.

EDUCATION

Fullstack C# .NET, 01/2026

School of Applied Technology

Intensive three-month programme in fullstack web development with a focus on TDD, mob programming, and hands-on applied learning.

Webmaster, Higher Education Diploma, 06/2025

University West

Two-year programme (120 ECTS credits) covering frontend, backend, Linux administration, UI/UX, security, mobile web development, and project-based work.

Fullstack Developer, Higher Vocational Education Programme, 06/2025

Företagsuniversitetet

Studies in JavaScript, React, TypeScript, HTML5, CSS3, and agile ways of working for fullstack development.

Bachelor's Degree in Sports Science (Health Pedagogy), 06/2023

GIH – The Swedish School of Sport and Health Sciences

Education focused on health, behaviour change, pedagogy, and sustainable performance.

Provided a strong foundation for understanding human development, motivation, and well-being, and how theory can be applied in practice.

Train Driver Education, 06/2011

TCC ProTrain

Vocational training focused on safety, responsibility, regulations, and operational decision-making in complex environments.

Laid the foundation for a methodical way of working, high precision, and the ability to act calmly and correctly under pressure.
